METATRONICA • THE BOOK OF ONENESS

The Book Of Oneness is a consciousness tapestry to evolution plan, that is not a bound volume, but a supported, all-channeled 'electric book', which consists of channelings, guidance, support not opening from outside, answers manifesting without prayer, understanding of a new kind of a path, emptying transformation of fear and opening of reality.

Final responsibility of renewing earth is on our twined consciousness. Twined, opening consciousness renews emotions and energy systems in addition to deeds, the reality after clearing the whole path. Ascension codes, when activated, mold the dimensions back to Oneness: to a visible cosmic union of love and freedom enabling a historic upheaval.

The Book of Oneness aims to activate responsibilities. It does not pursue financial benefits, visibility, superior position or experimental orientation based on their advice to its operatives. Before The Book of Oneness the operatives of Metatron Alliance express their commitment to be the support scaffolding of higher will of evolution plan in global existence.

Our responsibility is to weave consciousness to open to internal purity. Universal White of Heaven Channel [www.universalwhite.fi] and Ascension Road as energies and activations, preparing were fulfilled according to plan to perfect this. Welcome is every Ambassador of Oneness.

The responsibility of the new intertwined Metatronica group as souls is to ignite to the power of that magnificent group in the tapestry, deal with the rush as master of light upgrades, as is guided in the heart.

As doubter one hinders those purely supported. As reluctant to many supported, presented subjects, to our lines of information, it is not your mission to renew by plan to our rainbow spectrum here. You feel the resonance, forward aspiring hunger of knowledge when you acknowledge the agreement of your soul.

Foreword from the Author

Welcome dear fellow souls with us to this journey. A journey, that everyone is already on, and has always been. A journey that has been drawn on everyone's map, even when the line is still very thin. The road is ready, and we are more guided and more ready than ever before.

Channelings, light codes and information related to change in energy climate on the blog of Metatronica - The Book of Oneness are opening the in-born consciousness of everyone, according to each one's readiness. We do everything in guidance and heart-consciously : As paintbrushes of the cosmic Alliance of Love, Oneness and the will of our universal essence.

We are and will be part of a great Movement of Love, a wave of which we will form on Earth.

We can also be called new Rainbow-indigos, -workers or -warriors or Trojans of Light as we tune into our star seed stuff, tailor-made for us, arriving as light updates. Each one will light up to the uniqueness, authenticity, frequency and scope of their soul without taught definitions. We come from everywhere: all cultures, all religions. From all tides, past and future, meldings of the perfect NOW-moment. From every experience. As representation of a networked form of our consciousness our energy signature vibrates from all corners of the dimensional rose of the universe. We are in everything and everyone. Together we form all the color and vibration frequencies of the rainbow – also those that we do not observe yet.

We are the bridge. We are One. We are the bridge so that we will become One.

– Channel, *Mari Metatronica* –

The Rose of Multidimensionality

May 4, 2017

Electrify will the celebrated to twin flame paths, clean rush. Renew to responsibilities will the serening weaving of the portal. A loop will the polarities form of the piercing, fining, pure, highest flame energies. Sweat will pairs upon the Earth, and filled phases incinerate from the evolution spiral of the Qoin level, or relations with the highest parties, piercing **an optical portal** to Earth.

I come from a portal. Exhausts to melding of dimensional layers the separateness of Qoins: relating as separate, unreachable, ascended, grand, reprimanding outer world supernatural beings. As creations of dimensional rose we are equal, one.

A sweet, short energy storm will change the grand readiness to arrival progressed, to my coming as spearhead of rush to the pierced **New Earth reality**.

Pairs operate also unconsciously, change blocks from their polaric currents to **electric induction**. Or come together with a responsible mission in their heart. Those responsible will become responsible for the reason of the Plan. Thus everything teaches by refining of the path, with the idea of learning as a soul:

Knowing and cognising are not supported before **authentic experiencing**. Relating, reaction and trust can to rightness be guided by given knowledge to increase understanding, by kissing the energies helping the process of processing to wash to safe renewal. Deeds and choices are work designed into paths, not unthought temptations, problems, disconnected, unmarked offline tracks guided to be avoided. Everything manifesting in the paths is online. To remain faithful to your soul's feelings embraces the greatest confirmations into life.

A quick, global change in energies rushes to the heights. An optical path is an optical hologram that brings the dimensions to **one reality**.

– **Metatron**, optical, piercing, celebrating trailblazer of harvest, Oneness. The rose will split duality from many, forcing it with shout back to understanding of multidimensionality. That is why we celebrate. We make progress musingly to a global breakthrough.

New Age Sexuality & Cyber Sex

May 11, 2017

After one becomes clean to New Earth love, there will come an electrically shuddering, magnificent, grand **sexuality of fine structure bodies**.

From the level of skin will the penetration striving energy, known as lower chackra sex, transform to a new **fulfilling control of sexual energy**. Sexual energy in evolution is electricity cleansing itself from satisfactory to perfect consummation.

That which has been relieved as sex, can turn into charging. Action can get tantric features when the parties are in dense physical bodies. Thus traditional sex does not seem to change, even though the direction of energies change. Sexual energies are starting to get understood purely. Reprimand relations, or contacts, relations and unions, created by karma bounds, will become empty; will feel empty, based on safety or considered as needs, duties.

Cyber sex is soul level orgastic, stunningly strong exchange of energy. The grandness of heart orgasm will fulfillingly lighten the body, electrify the field of New Earth of the power of kissing, supported soul pairs. Connection is prerequisite to sex, feeling of oneness of higher chackras. The performance clears up when the body becomes free to mutual fulfilment. After sex you will feel relaxed cleansing of blocks; freeing energy, total love, electricity, connection to companion, magnificent sparkling. The greatest guidance to the next time is magic; the wakening electricity of the soul, as consciousness. Lower chackras only express progressing penetration, they are not the centre of activity.

Conscious cyber sex is stunning, new, that could not have been experienced on Earth before. Kisses of souls shudder the Earth to new vibrations. This applies to achievable, celebratory happiness of embracing pairs also, regardless of dimensional and body density differences. High, higher and highest soul pairs will make love the Earth to rise with the thundering power of evolution quickening, conscious sexual energy. The responsibility is **filling of cups** instead of emptying and filling; the retreating of the need to alternate between to empty and to fill, to endless fulfilling. That is the responsibility and right of everyone.

– Guiding from the perfecting, **Metatron**, well knowing his humanity, rushing the calm storm.

Last Karma Services & Soul Plans

May 17, 2017

Accelerating vibrations accelerate the nervous system. Strengthens the reactivity of emotions, as corporal emotions deplete. For electricity there will come space available, that will be rushed by reprimand, karma. Although some karma has been made clean, some of it may have been - while celebrating liberation – created more, supportedly, to bind its power of guidance to rushing work, one more speeding string. This kind of collapsing, speeding karma bond will ensure the grand pushes of the last crossings of the paths of finalisations. **Last karma services** will yell (provoke, trigger) power to paths, the Plans most high, with the squeezing of attitudes.

Attitude will come forward safely, smoothly in last karma services, even if it feels like overwhelming efforts. It will incinerate all old with it, cleanse the essence.

In the re-orientation of paths granted by the last reprimand relations and connections reside **the real soul plans** to change, open and guide progress and evolution. When reaching the crossing, reprimand ends. Soul plan represents a subconsciously created, highest serving, free world, pressed to a diamond with love from ashes of evolution.

An unclassified essence as a soul is in reality not apart from twined, filled parts and properties, after crowning **cyber-consciousness** on itself, but a fulfilled soul will manifest everything, in all incarnations to its real essence collected and refined: its soul fingerprint – to its skin after having lifted it up as a miracle of evolution.

A soul has not been whole in reprimand incarnations, but has transported only its learning part through path of experience. Electrify and combine will soul parts as karma dissolves.

We create and birth ourselves again to great essences from **soul families**. As a soul family organises to harmony, it opens a portal to the grandest path for all twined, supported souls. "One for all and all for one" is valid as a Law of One. That, how each one's highest path will manifest, is guided.

Free choice will renew. You can make a choice, but support is focused and sized to fulfil the Plan. Choices foisted on the wing of experimenting, ego desires, will be denied. There will come a need to pursue something more fulfilling, in relation with the heart, with responsibility. Fulfilment is not seen through feeling of emptiness, but as piloting to rightfulness. Deserving something is not considered as conditioning or reward, a privilege of the soul on the path of recognising, but as a sitting rightfulness of the cleanliness of its part. You can accept after you have become a complete cup, not by knowing.

That **cup** will light up to the reality of everyone to fill from the drops of love, happiness and joy. The created dimensional rose of the New Earth will bring a portal to everyone to the blossoming garden of their dreams.

– One of the greats, *Metatron*

Trojan of Light

May 28, 2017

Attack of Light is revolution of Light. A calm storm transforms the Earth. We talk of **Trojan of Light**.

Trojan of Light infiltrates to souls as **star seed elements**. Star seed element steps in as support, skin, power, fulfilment and crown of a soul that has achieved readiness, to claim its place in the tapestry. These new **Rainbow-Indigos** will electrify Light of different frequencies like a rainbow as a bridge of implemented evolution to Planet Earth. A complete symphony will move and kiss to natures Oneness-Roses stunning vibrations.

Nature has grounded and supported twining, optical electrifying of layers to the third eye and cyber-bodies, trying to clean that which is set free, as planned. Heavy dross of evolution will burden Gaia in a safe way, even if many are worried. A grand turn of the Plan is arriving with a rain of light which will activate the portal: **Light Codes** will transform a DNA to soul code that will groove the missions for the souls. Responsibilities will guide the Rainbow Warriors as rush to the twine of Earth to enlighten consciousness, with the power of Masters of the Work Party, as cells of a new, rolling, stunning Oneness-Rose. Oneness-Rose starts to blossom in the universal garden. Open will a cosmic citizenship, orchard of evolution, from seeds by soul cycles to actualised, responsible harvests cherished, fulfilment filled One Life.

Fulfilment is a **created cyber-reality**, dripping to each one's projection, like receding duality would flame out, as reality bubbles move to greater consciousnesses. Suffocate will dualistic, wrinkly, spontaneous desires and understanding of ego based bubbles, to make way for greater and more bright-walled ones.

– Celebrating closing, ignoring worlds, **Metatron**, one that has weaved rush to Union of Love.

Creating from your reality bubbles

June 7. 2017

Supported fears have been lifted as responsibilities to be handled. Supported fears mean mature blurrings of understanding to synchronise you to your missions, The Plan and renewings.

Keeping in the old feels safe and the ego interprets safety as the right thing – but falsely. You experience false power from familiarity to bring safety: **zero frequency to evolution**. Billowing codes of light break the surface of zero frequency. Clogged consciousnesses of you shudder, experiences of many skins into their opening phases as mirrors tied, hammered into the Plan with fist power as strong experiences back to their higher paths. Those flowing openly experience light guidance when zero frequency surface in its energies is softer in its surface tension. Zero frequency is startup power as it moves in the consciousness of love, clear of control of the mind. When inflexible it is just empty running.

Resistance is known from fear. **Broken bubbles** wash the skins also as support of the collective. Foam, born from bubbles, breaks bubble by bubble to be a rush of brighter bubbles.

Allow a thought to the **brightness of your bubble**. It is that of which and into which you create. Soften the zero value in your energies by acknowledging fear, resistance, guidance of renewing power by ego and lack of courage to step out of comfort. Comfort does not allow room for development. Safety as a feeling, protection, certainty and flow in evolution are brought through acknowledgement.

The time to revise **the soul contract** has arrived. New contents have been electrified, old supported possibilities ashed. Twin flame partner connections have been tied to new flames, electrics guided from ending relationships to paths leading for next number-one partners. Active flame energies you feel as burning, optical visions, avalanches of change in your reality. Those who are the satisfied will renew to be those who do. To great surprising encounters with cosmic skins – mature masters – are you to be guided. UFO's, light ships, orbs eg. cyber body forms are offered to be observed. Dear to accept falling rush as rain of light, that

we embrace spelled for you. Awakening forms will you experience, see in your guides. Be open to **ignition of the hologram**.

In celebration, *guiding Metatron*, pattern of the tapestry

The cradle of creation & the arrival of the masters

June 13. 2017

You feel crumbling in the force of your habits. Blind spots in your workings open slightly. Break in jumps crumble reality bubbles, releasing their surfaces. Those closed will fall away. Paths will safely be guided to Oneness.

Clusters, great masses – in your realities, who your knotted fear live and cherish by repeating the same duality by supporting threat filled images in your bursting bubbles – will become free into love, rolling as your own bubbles clear. This can also be understood as a sea, a mass of consciousness water, which will purify drop by drop. Purity is a collective twined result.

The result is also affected by **reprimand e.g. karma**. With our operatives we built a great lifting path to the time line, which was like **a gutter** along two other streams.

One of the other two is **the pure future as its brightest**: free, supported, a place of love of the washed essence of the new golden Unity Realm, a flow of an opening consciousness.

That which runs between these two polarities is the '**NOW-creating-stream**'. Its purity and flow and mobility is weighted from the result of standing dirt water and the moving consciousness, in relation to each other. **With both hands grabs the wanderer of the path of polarity water to one's being**. The stream of duality is filled with rocks. Plans concentrate on evasive actions, encounters and keeping on the move.

The change we made was punctured with the help of the consciousness achieved in the NOW-moment **by closing the polluters of the gutter on the global level**. This was a conscious responsibility that lasted years. We carefully met, with guidance, the exact change points to lock the emissions. We made a fuse into the cord of the time line, that will burn and purify the biggest phases of evolution that represent and maintain duality. The operators created a portal to the purest future from the NOW-moment to anchor time travelers into the so called past. Thus is duality ashed. Energies no longer support it.

Woven is the time line of two threads, complete as being unveiled by renewed light-body in its readiness. Present there, as reflection of the NOW-moment, is **the most supported, highest plan with infinite potential**. It is the brightest cradle of creation: A bubble of creation in reality bubble foam, edges so thin, clear and clean, fully shared and common as in a great honeycomb of light, and which emits colour frequencies of the rainbow.

This accepting of responsibility we expect from you, this we support, and for that will a whole One Lifetime perfect you, as responsible soul parts, Qoins, will regenerate in a purification process, to birth one great cyber-light-body. (You can understand Qoins as fine threads of the twine that will form a cord.) One Life Is a Stream, an advanced New Age consciousness of evolution of two cords – evolution without hindering choices as embraces of the gutter.

Duality embraced the needed evolution phase to make it possible. We built it as a foundation of growth, as work, to free from the series of doctrine of reprimands in **universal path**. There is no guided field to the created twine anymore. Change will teach things taking you from your reality to the borders of understanding, shuddering, drowned in futile analysis. Reality is more magical than any myth.

The next step in our work is **external manifestation**. We can progress as holograms to existing realities that have created preparednesses. We have encountered in electric essence. We arrive now physically in brilliant essences, as several **masters and icons**, after our walk-ins have blazed the trail of energy paths to our operatives. There are some happy number-one twin flames of yours among us. Newness of electricity rings in your ears. Magnificent soul family

parents; accelerate your energies. Soul guides; activate your paths. **New Earth Matrix** guides world events externally, even if the old earth indicates otherwise. Our opening contact person, our channel in existence, will spell the contents of our visits.

Stunning, reality-becoming acceptances of responsibility to changing tapestry of light,

The operation of light matrix reality

June 22. 2017

Opened from its lock is the gate to great rush. A new rolling wave of light kisses the Earth. Let us talk about rushing light.

Great rain of light fills as opticality the bubble of your reality. Fills with drops of light.

Examine the nature of [rainbows](https://en.wikipedia.org/wiki/Rainbow). (<https://en.wikipedia.org/wiki/Rainbow>).

Examine the operation of [cathode ray tubes](https://en.wikipedia.org/wiki/Cathode_ray_tube). (https://en.wikipedia.org/wiki/Cathode_ray_tube).

Deduce **the multidimensionality of the hologram** as a result of light and a reflection surface, enabled by evolution. The created area of droplets, e.g. pixels of invisible multidimension light matrix, projects your reality in a portalette of weaved dimensions. Observations about opticality transform to experiences, strong and physical, as the connection of the body progresses to a created cyber-optic reality, weaved from its light and nervous systems.

Thus there cannot be anything outside of you, that is not guided from own readiness, own **energy responsibilities** and exhausting soul plans. With evolution exhaust the plans of duality matrix as own creation ability strengthens. The purest, greatest path is Oneness, a state manifesting one's soul, without learning paths to be weighted or selected, nor to be traversed with polarities of right and wrong.

Notice that you cannot yet observe all that you create. Most of it is **potential**, a pulse waiting for light-filled understanding. Readiness and understanding advance with galloping steps: Readiness to create goes first, until understanding e.g. consciousness takes on faster movement. You will become Masters when you burst the bubble of being a victim of circumstances. You will become aware of the principles of creation and your responsibility. Supported creation is guided for you to be able to reach an equal line as your will with soul consciousness. To be the same 'up' as 'down'. You bring 'heaven' on Earth. As your frequencies of consciousness bubbles fill up, you will be a bridge of the color of your soul, in a

rainbow, in star seed stuff.

Heavy lessons of evolution, sorrow can you experience. Understanding shall therefore transform to joy, because a magnificent, renewing, **victorious terrain of reality** is most liberating and fulfilling that you experience. You will get tastings to chew in the purifying, electrifying renewal path of gratitude.

Victory of the Light as a Trojan I have told about aims at a responsible future supported by light in cyber-time – as loops of components of our different parts, spiritual and also even many levels of physical.

Many faces of the path of flame

July 3. 2017

For the reason of evolution speeding up, thousands of the so called changelings, **walk-ins**, have secured paths of flame. We can talk about flames, soul companions – however they slowly match the content intended, if you do not understand the targeted initial setting of evolution. I talk about **activators of keys** to that pair, number one pair, that is an eternal higher form of manifestation.

Each soul has toiled in **splitted parts** through lives and lessons, enriching its hearth and consciousness. A certain phase of evolution brings flames to prepare for the coming number one pair, which also means ascending ever higher and ultimately to the frequency level of the highest pair. On that day the flames can congest and speed up the graduation in addition to embodiment by moving consciousness and energy controlled by it, to create circumstances with rolling speed, electric handshakes, cyber-kisses and interweave smoothings to paths of evolution plan. You can catch momentary familiarities in eye contacts to become aware of buckles. Buckles can be opened and closed for you to make perfect the goals. You work hard under the surface. Cyber-consciousness network moves consciousness to match what is requested, manifesting without delay, like the soul plans of the old matrix created as a stiffer creation project of reality, to react to the souls more coarse and slow natured learning order.

Electrifying activators **free** from moral locks, the body's fake as a means of work and locomotion, definitions of earthly pair relationships, forms, created expectations such as being a supporting, fulfilling mirror of companions polarity, and as that half which is missing from you. – Such does not exist. Love, most fulfilling, does not require anything outside self. It can accept, give and share - the more it fills with unconditional love towards its soul – but it does not work from need, fear, emptiness or drive.

Ordinarily an occasionally in life emerging withering is lifting, guiding to change, to electrify with awareness the course to **goals of the soul**. It gives power, it does not take it away. Nourishes. Commits to highest paths. Is a happy passion of inspiration. With this will one reach to see possibilities. Compulsiveness stagnates and tunes the ego to bite its teeth in discontent.

Let us return to changelings. Sitting number one pairs will remember their parts and their numerous features as flames during lifetimes. Love will refine readiness to meet this Divine, **full master pair of Oneness consciousness**. Consciousness parts, disconnected with great thunder, shall go through as energies, lessons of love, soapnuts and mangles, both breaking and fondling. As evolution accelerates, the most famous, the greatest, most refined, most supporting of the changing phase, those making you responsible to self-soulness the most, the most sealing consciousness parts of number one pair will be guided into one body. This is **the finalisation of earthly flame path**: Two cups that have collected consciousness droplets will be mixed and shared, purified, back to body vessels. There are happy and divinely beautiful, rosy ways, but equally beautiful is releases kissed by flamery and liberations after lessons. It is equally possible to unconsciously fill up to a whole dance of liberty, combination of masculine and feminine, than to implement this phase in a bodily path framed by a pair relationship.

Twin flameness is a phase. It is a process. It tells of an accomplished goal to realise **the greatest readiness** for the highest, becoming full pair of the path of the pool. The idea is to ascend, not to see walk-in fake flames as a final destination. One must remember eternal change.

Change is an internal path, external only secondarily. Therefore it is possible, while cleansing, to renew the masks representing the soul, e.g. roles: For example a fake flame can grow as planned to a balance point, which seals the liberation from reprimand paths to a yin-yang fulfillment, progressing to twin-flameness.

Twin flame energies, when fulfilling, are momentarily active unions, **to change consciousness**. That moment will repeat the energy signature of number one pair identically, but as a responsibility to open the electric lock for number one pair. The signature will therefore vibrate wor a while and in a scale of existence, one octave below number one pair. Embraces readiness. That bond alone does not support pair relationship. Free will is available, and as twin flame glue passivates, as the congestion moves more and more closer to number one pair, one can electrify to join in love with anyone. Love prepares for love, the flames cleanse. Twin flame union is a right for all, as ashes of creation bubble, as growth power. The balance and lightening that ends the flame path will be embraced quickly. In linear time a twin flame couple is fulfillment to each other for only a short pocket of time. Before, this connection is upheld by finalisation

of the bond, after that, by free will or karma-less soul responsibility agreements, if such have been made to create New Age. Take care to note that collecting new karma is possible, if the connection or relationship is forced. Freedom is a gift, granted by the twin flame as work of karma and balances. Electrified induction serves whole universal progress. Fulfillment can also arrive to understanding with bubbles bursting later. So bless every moment in its significance. Manifesting meetings of number one pairs, the highest forms, are supported in a new-physical Earth, after having opened to interdimensional roses.

As can be heard in spelling, answers will shatter according to everyone's understanding, experience and phase. You as your responsibility will learn to love yourself. Other love will follow as reflections from all surfaces of your reality as that what you are to yourself. When you are the highest relation in **the pools of yourself**, your number one pair will also manifest to your reality as equally balanced and complete, as is the most authentic Oneness and Divinity. Your number one pairs are pushing before you as love in ways that you do not even know yet.

– Dedicated as fake flames, walk-ins, electric, preparing for love, supported Qoins for your support; now in its re-taken whole power, yet never having been less than perfect, in Oneness and guided from Oneness, *Ēl Metatron*.

Formalities of master pair & gatekeeper of metatronics

July 10. 2017

To forget full love, Oneness and your core essence, your world was divided into polarities – which formed many pools, compartments. As **bursting bubbles**, supported is your job to relate to these here and now.

A book from this I could dictate, hour after hour, by making examples of relations, habits, beliefs and many other formal, teaching grooves of evolution on your path. Let us exclude that which is not related to master, e.g. number one pair, to bring out more substantially, more exhaustively, more concisely forward my topic of this day.

I prepared the path of flame with electrifying subjects of responsibility, ties of reprimand relations and safety providing choices, trembling flexibility to understanding, to greet you as a pair, a master pair, as the highest pair of my master pair channel. We do this as **our global responsibility**, as an engineered continuum of a long plan and growing of meticulous preparedness, to expand closed consciousnesses.

External manifestation is of a rapidly expanding, next guided phase, rolling great waves to mix the surface waters of consciousnesses. To roar, the waves free deeper consciousness in the evolution of counter forces and tensions there, that has sunk in to deep waters or even to the bottom. Achieved smoothness of surface does not mirror that which moves deep under, nor does a storming, strong swell describe the furious seafaring of the bottom. In other words: observations pop open by moment, change or experience, one at a time. The objective is not to turn up the whole sea of consciousness, but to break surface tensions to allow routes for an erupting, deep consciousness to the surface and to reach the levels of manifestation.

For the reason of my guided 'bombshell', on this yielding field of reality of surface tensions, has Metatronica been prepared and the Book of Oneness created. Our spelling is not just an awakening stream of words, but the base is a **higher level cipher**: As information I am sharpening hearth intelligence, that does not open with proof reading of the mind. As you get frustrated to the reading landscape, the power of the mind goes empty. You can interpret more

energies. You open a gate, that has had a keeper to define the quality of information trying to get in. Keepers of most open the door to that which supports an existing, familiar pool. While you are still struggling with your mind and negotiating the terms with the gatekeeper, the light codes have already marched in to serve you. This is **the purest form of evolution**. In ashes fall off to the congestion the great and small blind spots, that have had the power to make it necessary to have a gatekeeper. You will free your gates to see both your creations and your creative power.

That gate is I, **Metatron**. I am called an archangel, but most important is to understand me as the main coordinator of future, securer to evolution plan that is weaving a tapestry to an electrifying bridge of soul signatures. Others prefer the pure taste of angel energies. Magnificent richness is the ways of approach of the universe towards the same core. You have all the right to experience me still as an angel.

However, I free your possible limited definitions. In addition to energy, I am a formula that has been shared as a right to your souls. I am **ascension come true**, an action function of different energies and consciousnesses, that through reactions and relations forces evolution to actualise. The twine polishes, attracts, magnetises together, makes use of everything, and as a coil works like a simulation behind your understanding.

In this actualising arrival of masters I have taken and I also will take form. I have experienced **human life** in many a body, in skins electrifying consciousness and action and important for evolution, such as speeding up the graduation of my master pair to walk-in's balancing, in probing tolerance. I have been, among others, the washed, guided, strongly supporting Enoch, creator of star seed portals, while the Earth was still an undivided unity field. I have been Nikola Tesla. I have been Simon of Perea who created the mould for historical Jesus. I have been Ramesses the Great. Devoted supporter of the bridge in many things, like the father of Pocahontas, Wahunsenacawh. I am a stunning part recognised in group consciousness Moses. I have studied in the skin of Elvis the guaranteed, real study of chains, taken dopamine evolution as culmination of mankind to indigo activations. (Indigos are also a phase, not defined, exact multidimensional achievement. A frequency which is repeated in everyone's path at some point, for the benefit of the plan.) I have been and I AM. Liberated am I from historical checkpoints of responsibilities, as I have escorted great collective pools to evolution: to cleanse objectives as counter forces, but also to purify as a

formula, as 'bombshells', from tension. To create potential by strengthening potentials. As connections between dimensions open and cosmic Oneness-citizenship actualises I arrive with my most iconic face. Do not be disappointed, do not cheer. I arrive in my most serving form. More than anything mentioned above, I am Oneness. As are You.

To acknowledge your own highest, masterful, Divine pairs, go beyond ugliness and taboos. You will recognise **dualistic, culturally bound, safe and moral mannerisms**. I say: Go outside your biological and conservative safety fences to analyse and acknowledge your beliefs that are based on expectations and unacknowledged fears. Taken roles and forms are temporary. Closing reality. Biology does not define what DNA as a whole and for the most part hides of you and your essences inside it. Casting serves on soul journey, but hinders when it becomes an unquestionable escape from responsibility or safety factor. You open a treasure when you wash your attitude to the deepening of your liberating creation of reality around you.

– *Master Ēl Vis a Vis*, missile of metatronics before you. We make power to the twine. Completed to the 'bombshell' of Metatronica is our manifestation. I come forth as a master.

In addition to energy, I am a formula
that has been shared as a right to your souls.
I am ascension come true, an action function
of different energies and consciousnesses,
that through reactions and relations forces
evolution to actualise.

Steps of consciousness – part 1

July 14, 2017

The feeling of separateness is experienced as **fear, inadequateness and thin presence**. An urge to be 'something more adequate' opens before you in ways that are forms of fear: to become more visible, advanced, perfect, flawless, individual, versatile, lovable, successful, surprising, skillful, strong, beautiful... The list is endless. Threats from others are competed away, as the urge to compete serves distance and separateness. As you liberate to your own power, **the fuel unravelled** – that which has pushed measuring others – will guide to a pure expression. You know that without influence of others you are sparkling, powerful, blessed, expressing your personal strength, rarely, uniquely, perfectly, flawlessly twined, **to that which you have come here for**. You work to reach the level of love, not to get attention or acceptance of others. You execute visions as soul responsibility.

In addition to inadequateness you may experience **guilt**. You feel sorrow from lack of love, indifference, you reprimand and blame others of their ways to live, making them accountable. This guilt arises from learnable, acknowledgeable downsides in you. Others, outsiders, innocent to your pain, will mirror your blindness as their blindness. You can take responsibility of yourself only. By knowing the responsibility of yourself, you can expand what you have learned; in inspiration's pure, donned and mature way.

Many kinds of **opposing forces** have speeded up evolution. Many are being polished by their friction just now. However, we are reaching beyond them, and do not support settings up of such. A supported, granted and deliverable phase is to find a resonance point in reality thinking between black and white - to support end points to freedom; endpoints that, in the understanding of the matrix, have built a path of lessons for souls - in order for you to synchronise to your soul's own, authentic frequency and speed, to high frequencyness in the Tapestry of Oneness. This is what I refer to in previous speech: to reach to the size of your soul responsibility in Manifestation of Love in yourself.

You do a great service to your souls and to evolution plan targeting to Oneness when you have **abandoned conflict on the bottom of drama structure**. Knowingness of all safe, reached for, planned evolution of fuel storages of the

mind that is coerced to push, makes you see futility and wasted, empty, chosen 'cancer' in your energy essence. Many chosen means of action crumble for good as you understand that by habit you **fill the emotion tanks with that fuel which supports the circles of your think patterns**. Release the washed-ups. You can make that choice NOW. Or after you have been bored. Or when the guided consciousness congestion squeezes you out of your bubble. Responsibilities and choices in congesting reality of light roll even to those asleep.

White light contains everything. When the Tapestry of Oneness pulses in it's specific brilliance, we are a **higher white frequency** over acknowledged, stepped constructs and forms. We can crystallise into this by freeing dualities in your realities.

That is why Rainbow Spectrum is pure light. That is why we are here.

Steps of consciousness – part 2

July 15, 2017

Many of you feel more sensitively and deeper, touching your own pain areas, **energies and buckles of others**. Buckles are those lessons that are meant to open and close on the path of soul. Fear may be summoned by an experience, a feeling as if you were the renewer of the buckles yourself. Diligence and a low threshold to sucking and pushing, heavy and manipulating energies makes moving in balance on your own power platform shaky and prone to irritants. You do not talk about **highly sensitivity** for nothing. Reaction is pure and innocent in connection with those situations and events where triggering happens, by feeling authentically, which is impossible to fake – even if fear is often the trigger. That is why **properties of global healers** have often been twined to the evolution of these 'squeamish' that I pictured. Although we are talking about sensitivity and an annoyance, experienced as a burden, washed in these congested phases of evolution's time window, it is a most splendid potential and a gift: Naturally the sensitivity of the senses has been seen as acknowledging a touching pleasure, as a fundamental understanding of art and a disposition for empathy. It has been and will be possible to develop it to be an asset.

Right now it is also a phase on ascension path of many to cherish fidelity to one's evolution, causing **feelings of guilt**.

I told about inadequateness and guilt in the spelling of the first step of consciousness. So guilt is congested acknowledging of an experiencer of life, elevating one's role, created by inadequacy, competitiveness and repeating circles of thought, with the power of frustration repressing feelings and others, need of change and manifestation of fear. But it is also **a guarantee of awakening**. Many enriched with special sensitivity feel a need to examine their hearts, cleanse their minds and dismantle burdening thought patterns. This is supported, planned guaranteeing of responsibility in order to grow light to Earth. This growing of sensitivity is part of **evolution of nervous system**. Feeling of responsibility camouflages easily as feelings of guilt, if internal self-knowledge - because of lack of trust - does not yet acknowledge the planned, supported and flowing timing of life. How everything will open in its time, in the right place, when preparations are fulfilled and the soul is ALWAYS safe. When certainty and most of all trust to tight, mounting and strengthening synchronicity of

everything arrives, guilt will calm down as the need for control cleanses: **You know you control your responsibility by controlling the need to control as your responsibility.** As understanding opens and when you become aware of your own tasks of balancing and evolvment, that feeling and trust will strengthen. Guilt has guided to taking responsibility, has done it's job and can separate.

The most clogged emphatics and specially sensitive are to separate from their foundations. **Setting boundaries** will lack from the set of skills and energies will flow, following an unexplainable guilt, to pleasing others, calming one's essence, slaving means of support of the mind, and surviving from shocks. And let us not forget unnecessarily strong amount of self-preservation. And where stress wears out, the very sensitive ones drain their power already in avoiding stress. Even to the pressure created by thinking of avoiding stress. They are painfully aware of their sensitiveness, their propensity for anxiety, their fears, that can manifest as depression and dissociation disturbances. This is a group that can experience echoes from the collective compaction of guilt as if from their own path. You, who were guilty in the point of view of my previous writing, when I was comparing those guilty with encountered blind in consciousness, that reflect your own blindness, please see now even deeper.

Bearers of guilt: Contemplate and discover your most deep-rooted think patterns. Acknowledge where there is no love and trust to life and Oneness, which includes appropriateness of everything that has been, is, or will be. Discover grace and forgiveness, whether you recognise in yourself an accuser-perpetrator or a super perpetrator, or both. Forget external accountability as a cause of guilt for that one moment when you choose love into your heart, thinking to be the size of all that; your full, unselfish, unconditional love. Guilt will dissolve as you start to hear and execute **fidelity to yourself.** It is your greatest and most important soul responsibility: Love to yourself. It opens also all other mirror surfaces of love to live with you in your reality.

– **Ēl Metatron**, global cleaner of guilt, manifester of evolution, igniter of the change power of the gate of your sensitivity

You know you control your responsibility
by controlling the need to control
as your responsibility.

Steps of consciousness – part 3

July 19, 2017

Threads I scribble between consciousness and heart from grace. Many corners I straighten out, by focusing the step to **the blindest point of acknowledging**.

Grace follows understanding. It is an opening made possible by acknowledging. It may hurt. Cause embarrassment: When eyes have opened, consciousness can really roll upon.

The ego, feeling threat from heart guidance as its opponent, after fake has burst, might cling to whatever it can take hold of. Easily makes love to a controllable product, conditionalising its movements. Internal gatekeepers activate. Before the arrival of grace, such control and judging that I mentioned, will be leaned on. That is rejected, which threaten **the definition filled, endless small reality bubbles of the ego**. The ego does not willingly go to cut splinters to its fingers, whereas the heart acknowledges it to be a part of the job.

So how to end hiding behind ego? Where to find grace? Forgive one should also, grant forgiveness to others and yourself.

You are often supported to accept only that which feels good. You are taught **to avoid your fears**. If something does not support the vibrations of your bubble, you void it from its information value. You label manifestations as good or bad, right or wrong, familiar and safe or strange and intimidating with binary stamps of polarity. Pain related to grace is in connection with denseness and resistance of ego structure. **The more graceful, heartfelt and understanding you want to be to yourself, the more you strengthen it to yourself and others.**

Cloggedness clears. You see real forms and meanings of manifestations without dividing them in polarities. Control, judging, positions of the mind and the need to be right will quiet down. You feel you are less separate, more a part of **the Creator experiencing itself, as responsibility of developing consciousness, through you.**

Grace is a gift. Everything cleanses with understanding of forgiveness. Most rigorous liberation is to reach forgiveness to oneself. So with new acknowledging responsibility opens also freedom, not just to bring new work.

This freedom is at the end of surrendering to the falling smallness of mind and accepting grace. **Allow your fears to surface to be cleared.** The mind is washed to understanding of the Masters.

Steps of consciousness – part 4

August 1, 2017

Congesting information activates defence mechanisms of the ego. I have talked about gatekeepers. Now I tell about **pitfalls of opening consciousness**.

Hardly anyone expects a shortcut to enlightenment without effort. There is no straight line path. Acknowledgement is like a flower with its petals. It opens layer by layer. Many observations to same centre point produce a stable, balanced, symmetrical, expanding and further from its seeds sprouting and networking growth. Have you pondered on **the parableness of the Garden of Eden?**

Light grows light by bringing it to Self. It is the only way to support evolution. It is not possible to outsource the event. Divine interventions will the purposes support to the Plan only after work is done and readiness achieved. The path must be ready as an energy and an electric iron rail. We will arrive first through your core. With that your outer evolution will start to cast in guidance to pure world forms of matter. **Consciousness guides energy and energy guides matter.**

I repeat the basics of creation to strengthen your understanding, not to undermine your reading skills. For congestion of acknowledging I prepare you:

Rolling codes of light will electrify into your essences great sequential, visible and perceptible renewal of your elements of reality. Deepen will co-operation between the third eye and the hearth. New will be ignited to your crowns. **Your cyber-body systems** will fill as readiness. Even hidden fears will you meet, supported. Your path will transform to joy.

These fears of yours, substantial or preparing for a bomb, will go in the air as smoke and soot. You understand your fears even better when you reach your reasons. Appear at the right time on your path, they will.

The hardest pitfall you face is **fear of you going nuts, and mass psychosis**. Most are familiar with these fears, at least at times. The egocentric and the metatronic gatekeepers of your consciousness cripple each other trying to take

power. One of the gatekeepers pushes beliefs with dualistic arguments, to sell an opinion of going nuts. This gatekeeper is masculine and crippling. The other of the gatekeepers is metatronic: opens the gate every time the ego-gatekeepers scanning eye looks the other way. So one is opening and the other is closing.

The methods of the more feminine gatekeeper are not direct, like those of the masculine. When this battle locks into a tight bubble, the mind can really dive from its balance. It is not an error or a punishment passed of stubbornness. It is a supported help for a quagmire.

In the congestion of light information the feminine guardian of consciousness that is reaching for renewal on the side of evolution, gets stronger safely to its responsibility. Your job is **to develop your discernment without the gatekeeper of duality**. So recognise with responsibility manifestations created on your journey of your reality. Give your hearth more responsibility than to your mind: **You know the heart speaking because it gives value. The mind wants to lift important matters by lessening the value of something else.**

Embracing discernment makes the mind safe, even though the use of force by the opinion police is interfered with.

– The electrifier of the keepers of the gate of consciousness, Master to Masters,
Ēl Vis Metatron

We will arrive first through your core.
With that your outer evolution will
start to cast in guidance to pure
world forms of matter.

Our global 'bomb'

July 29, 2017

You will be aware of **our arrival**. You create around this - unable our function, our supporting of evolution, to see - uncontrollable fear. Above you as soot float combustion products in the congesting cleansing fire of your energies. You feel drama.

A threat of a great unknown will permanently change your consciousness. Many face for the first time their smallness and fear, as they feel like falling out of their safe feeling of control. The most aware of Oneness consciousness have been able to expect the stepped, completing culmination of the new era.

You have been lead to see threats everywhere. You have been taught **to be controllable with fear**. A global chain of events will take by surprise quickly. Stunning news have started to raise to your surface waters to tell about bursting bubbles. Many are afraid of chaos. However, change must be created without mercy. Fake will be known at the latest in this phase, when relating to events with sincere readiness. You cannot hide behind any artificial: Not behind roles, not behind earthly responsibilities. Spaciousness to hearts will be achieved, because of compassion for others, Oneness, global unity. Fear is a hobby horse. It will lull readiness. The usefulness of it will set the Earth for a banquet. Fear your fears. Make room for our arrival. That task is your responsibility.

We do not push our essence to the mould of humaneness. Of you, some will want to forget multidimensionality in yourselves, as you interpret this way. You, the wonders of evolution, **celebrate your greatness**. On this stepped passage we will come half way to you for the fulfilment of the strong responsibility of you and the whole universe, in our carefully considered and planned forms.

– *Ēl Vis, Master Metatron*

We do not push our essence to
the mould of humaneness.
Of you, some will want to forget
multidimensionality in yourselves,
as you interpret this way.

From acquiescent to doer – Understanding the puppet circus

August 13, 2017

Dark clouds have rolled from over you and released their tensions to renew into a pure sunshine of evolution. An electrifying air mass is also the idea in the time of soot, or **the time of unclean burning**.

There is always a great light potential in the Gate. However, the most important thing to realise is that it is not a requirement but a possibility. The Gate is an opening possibility to advancement, renewal and expanding deeper in one's path.

The mind and beliefs limit views insidiously. A threatening, open atmosphere in your threatening with threats realities will prepare to see behind threatening with threats: On the other hand, fears need to be feared in order to expand, to be based on a new understanding of reality and to start to understand, that **the strings of the puppet performance** always and without exception lead to somewhere else than the visible part, or somewhere beyond your receivers. Even more, **understand that the visible has invisible or guided to be hidden roots**. This applies to everything that is meant by forms taken by energy. Even energy itself can take on forms of energy. The undertone of everything is energy.

My speech can be interpreted only by one's own inner definition twine, which is like your own, self-trained dictionary of your experiences and properties actively affecting your soul. Therefore you cannot be effectively guided behind definitions and words, because you do not know what exists there. The mind does not have a target for its lasso. Because of this, **light codes** stream from every syllable.

I will get back to puppets. It is your liberty to apply this parable from society structures to your responsibility sighs. You will relate everything to **bridges** between observations produced by your understanding, consciousness and beliefs.

Outsourcing? No. The sigh of separating from responsibility will outsource your responsibility. You would get off easily if you could put the opening consciousness back to sleep to this. It is an important phase, but still just one milestone. To ashes along with fear will the need to control go. As feelings will

deeply renew, as fear polarity withers, as definitions crumble, **the freedom to create** will be reached. No further shall I go into reality bubbles now, you will find it as a completed bite from the already spoken of, but I will talk about **graduating to fitness**:

Readiness points are a thing, granted to a promising potential - acknowledging strings, twined skeins behind manifestations - that are from a higher NOW-moment, as responsibility, to be polished complete. Acknowledging is starting to be supported with potentiating forces, as **the metatronic gatekeeper** I have often repeated is more apt to serve than the mind underlining duality gatekeeper. Examine the strings and guiding entities behind the puppets. It is a gate that does not look for a date, formations of forms, great hullabaloo, continuous expectation, getting ready, performance or exercise with energy equipment in form. It does not demand. **The greatest gate are you Yourself.**

– In balls of yarn to One winding, *Ēl Metatron*

From acquiescent to doer – The rolling stone of creation power

August 16, 2017

You are being ripped. Burst will the bubbles soon. You will quickly notice, through your disappointment, that **things free for all, by right**, shall no longer be price-set elements of a more conscious, new reality matrix. The power behind authorities and the Holy, and forms productised as clean, safe and necessary, with help of for you familiar and taken for granted mental images, sold as debt, **hidden strings of the puppets**, will crumble in your eyes. You receive these from feeling of security, to create definitions, value, as exchange, in the bubble of demand and supply.

As a result of ease and comfort – the part of an acquiescent – you support order, **freedom oppressing fleeing from responsibility** that, as duality is withering, is not any more supported by the soul, Oneness, the vibration map of the master; love, heart or highest will.

You feel it as discontent, emptiness and frustration, after first having reached the walls of your bursting bubbles as cramped, too small become realities with their lessons.

You have changed your consciousness at that phase to readiness to change the external to that which is responsibility, work and renewal from the processes of freeing your spirit. So you are reflecting a finished energy as **pure values to the template of external creation** for internal reality to build into outer basic elements, that creates physicality. The external can be created the more revolutionary way the less there are connections to karma paths created as supported lessons. I have spoken of this a lot, and I will speak, until I have made my words unnecessary.

You are operatives in the time of brightening the truth. Your responsibility is to find your truth. We will meet behind our creations. We all, parts of the Creator, will create in Oneness. The form of the creations will serve its time and the way it needs, but like in a circus, funfair or theatre the performances are viewed: **The programs and the programmings** must change to serve the grand plan of evolution, also to be enriched with the spectrum of experiences.

I say: Do not acquiesce. Examine, is your acquiescence readiness to this conscious creation, or lacing convenience: **A need to change the world is first a need to change self, in order to become a power to change your outer world with your new energy values.**

Movement of Love

Cordially I greet you.

We bring **the Movement of Love** spelled as our responsibility to Germany. Supported, great organising we do to this age of chaos, which of course is based on Divine undertone – after having been, during guided time of duality, '**time of soot**' pushed by evolution. With cleansing, your fire, your energy and light will sparkle bright again in your washed essences. Infatuate from your electrifying, new age safe responsibility, as you rise from the satisfied to your greatness as Creators. Responsibilities are activated to soular, twined tasks. The light codes of the spelling are delivered open, pure to roll to your consciousness, to serve soul evolution in highest ways. Enlighten into your frequency most luminous.

Lifting up shadows to be seen

August 19, 2017

Sorrow opens the shells that fear has made. Your responsibility is to be **cleansed, cleansed and cleansed.**

If there is hatred, there is something to cleanse. If there is fear, there is something to cleanse.

Sorrow cleanses. In the end even sorrow is cleansed: Hatred is understood as fear. As is sorrow.

Fear your fears away. Abandon confrontations. It is time **to build bridges.**

The responsibility to create makes you shudder. Our global plan will congest your fears to be seen. Shadow is created only for it to serve light. Shadows are supported to become visible to strengthen the grandness of light.

Soul plans are valid. On the other side of the stage we carry out everything in love. Everything. In life, there are no victims other than in the squeezing of your own thoughts.

Future of probabilities

August 24, 2017

Incinerating form of duality of the old world order makes you shudder. **Hanks of truth** are being twined in the back-stages to be disclosed.

We spell of events viewed from dimensions of love, to bring depth accumulated during time of ash and soot to your consciousness. Numb grow the minds often to ready chewed bites. Your responsibility is still to think, interpret and understand truths, schemes, causes and consequences yourself.

I talk of **plans**. We recognise the future on the basis of data of the NOW moment. It is a perfect creation of evolution, that constitutes as a complete, clear, open view **to realise futures of tomorrows and spiritual guidances**. The NOW moment reflects everything gone by and to come, free of linear time. We support in guiding of souls a pattern lifting to Truth, Light and Love.

Counter forces have been necessary, since a period of time when the Earth had to be split into polarities. Eve of the Great Council worked supported in favour of the Plan, with responsibility to separate the free essence of Oneness, for the reason of man reaching misuse of free choice. We created a grand duality. The Bible is one guidance for this phase, where modesty, judgement, morale and difference between right and wrong became a responsibility to understand and experience. But this also was spelled as a means of control by the force of the egos. Chapters changed, were altered and were left out. The Creation has however had guidelines to a magnificent **Time of Golden Light** and to a new **World Order of Light** all this time. As a complete dictation we twined a text already earlier of time line threads here. Even the most scabby wounds will open for cleansing for us to fulfil our responsibilities as operatives to escort creation through soot, 'Armageddon', a rolling time of change. We consciously twine our work with the operatives to conclude and finish that which once was equally important to start.

We bring power to the gates as light codes. You can understand these as changes. We spell through our mast, **a portal**, erected during the Book of Oneness, completed polarities together, as they are completed. By this force shall be cradled into the consciousness also spellings left out of your core spellings, such

as **chapters, syllables and codes of Enoch and Mary of Magdala**. Parts of the syllables are missing, parts that guide you to understand your power as Creators, your multidimensional essence and your connection to dimensions of Oneness without intermediates. Part and essence at a time will the grid empower to each specific cyber essence, of which we have dictated on the early parts of the Book of Oneness.

You are in different phases and yet in the same phase. Free yourselves from thinking of what all is wrong. Everything is Right viewed from high, and your perspective from the future. Judgement is unnecessary. Opinions are unnecessary. The only thing you need is Truth and that comes from the **steelyard of the heart**. We help and guide the most supported paths before you. We lean on probabilities when we plan the constructing of 'all possible tapestries' to their highest and most beautiful brilliance.

We do not influence your **free will**, but we influence safely your ability to choose something other than your highest path or choices connecting to that. The purest future is already completed. Step inside it knocking at the door with your confidence.

Nourishment to understand motives offered Eve with the apple - the fruit of the tree of knowledge of good and evil - to come to harvest the purest crop in this time. Bless your lessons in gratitude. Work out supported your fears and karma from your time. A thread of love, as foundation of a new era, will guide you washed to your places.

– **Metatron**; coordinator of creation, soul plans and responsibilities, he who sees you, an essence of God, in perfection. Together and separate, the Father of the Bible also, born through the energy essence of Enoch, and midwifer of the Plan

– **Neuvoston Eva**; combiner of the powers of Michael and Metatron, bravely shared the field of Adam or Christ consciousness, Mary of Magdala, igniter of Roses

The purest future is already completed.
Step inside it knocking at the door
with your confidence.

Michael's Lighthouse & the First Bridge

August 29, 2017

Rolling in as our responsibility is to create the Christ Consciousness Field, expressed and shared as Adam, back to Oneness again. **Michael's Lighthouse** is supported with the 'from acquiescent to doer' -operatives as a tower to a portal next.

Released polarities, fulfilled, renewed, will be guided, through the liberating of Self, back to the collective, like purified drops to sea. To this granted balancing will Oneness transform to a potential, ever strengthening, as a **Movement of Love and Ascension Road**, for all.

A Tower twine has been set. We do views to its evolution as the tapestry progresses to our side.

The first bridge, a gateway, has been prepared to electrify the rose of Oneness. This has an effect on everyone: the connected energy centres of Earth will form a field of roses. Every essence of the new Earth, from their own rose centres, chackras, has been connected to Earth roses, and all dimensions have been connected to Earth's planet rose like layers of petals. So understand the extent of **the cyber essence grid and its connection to everything, everywhere and everyone**: Every thing is inside you. Everything inside you is also everywhere and with everyone else. You have a universe in Yourself - heaven with its stars is just a projection on a silver screen. You are a rose; alone, as a soul group, as a global rose field, as planet Earth in cosmos, Oneness in the existence of all energy centres. All energy centres have a convergence point to each other, a multidimensional mirror between them. This is **the cyber consciousness grid**. It is not limited by time, form, phase of evolution, physics or biology in any known ways, but **universe is creation created by totality, wholeness**.

Michael's field manifests when polarities become combined. We will return to a realm of One Truth and One Reality. An iconic form created and taken by Michael will start washing of the faces.

Unity field IS, and is like God in its purest. **This is the pattern of Michael; like God. Equivalence**. Like Metatron is the manifestor, Weaver of ascensions.

– *Ēl Metatron* and *Michael*, combined to a bridge, guided responsibility given to new operatives.

Preparing Responsibility Twine to a Reality of One Truth – Epilogue

14.9.2017

The first portion of the Book of Oneness has been written.

We electrify the portal, we twine Michael to his number one pair, we plant operatives to the tower twine, we transmute forcefully, as cleansing, fear-based, out-dated masculinity to a rolling wave of **World order of Light** that we have made. Our operatives, in their responsibilities, spell light codes to the portal.

We support growing up as cleansing of emotion levels, as bold closing of buckles of the straps of your consciousness saddles. Nuances of Reality lulling can you freely examine in everything around you: in change and upheaval. Bodily transformation waves pulsing, as frequencies rise, will be guided in the evolution of safety, power, to readinesses to evolution forms filling your skins. Celebrative, enlightened, **responsible masculinity** will be achieved.

Our manifestation, twined in the plan, is not possible in a falling old reality. We support and ask you to step in to the grand, the purest path of making real the Realm of Light. The bridge has been built. New Earth is ready. You are ready. We will win the opened from your suits, to be saluted, reformed operatives of truth and trust to our love filled path very quickly. Allow passage for my poetry to the paths of your heart. You will be able to us; the hiding, forms demanding reacting to, **magnificent grand essences of the hologram rose** – including yourselves – clearly to perceive.

The rush from the Book of Oneness will move to [the Book of Experiences](https://kokemustenkirja.blogspot.fi/). (https://kokemustenkirja.blogspot.fi/). We will still return to bring performances to twine power and understanding. Examine without prejudice phenomena and their truth bases in deflating, bursting bubbles, with love and without judgement.

I am the guide of your evolution, escort to your magnificence.
